- Email: Send us an email at info@oogeeep.org
 - Facebook: Send us a message or post on our wall
 - Twitter: Tag us in your tweet @OOGEEP
- All entries are subject to being shared on various electronic and non-electronic outlets.*

Can you plan your day with, or without, the benefits of modern petroleum-based products?

CHALLENGE OPTION 1:

Show us how you can (or CAN NOT) get ready for work or school using crude oil and natural gas products like toothbrushes, toothpaste, shampoo, combs, hairdryers, makeup and alarm clocks. Remember, this also includes taking a bus, driving a car, or riding in a taxi.

CHALLENGE OPTION 2:

Show us how you can (or CAN NOT) plan a fun trip with your family or friends using crude oil and natural gas products like luggage, hotel room keys, beach balls, swimming floats, waterproof clothing, a modern tent, or packaged food. Remember, this also includes driving a car, riding a bike, or flying in an airplane.

CHALLENGE OPTION 3:

Show us how you can (or CAN NOT) take a brisk walk, jog around your neighborhood or participate in sports activities (such as football, soccer, or baseball) using crude oil and natural gas products like Dri-Fit or spandex clothing, athletic shoes, helmets, safety pads, or balls. Remember, this also includes quenching your thirst using plastic drink bottles or cups.

CHALLENGE OPTION 4:

Show us how you can (or CAN NOT) prepare or enjoy a meal at home or from a restaurant with crude oil and natural gas products to cook your food. Remember, this also includes anything that was refrigerated, packaged, utilized farm equipment, or was transported by trucks to a grocery store, manufacturer, or restaurant.
