

OHIO OIL & GAS ENERGY EDUCATION FOUNDATION

HONORS THE OHIO NATURAL GAS AND CRUDE OIL INDUSTRY'S HERITAGE AND ENERGY CONTRIBUTIONS

In 2007, OOGEEP and Ohio's oil and gas industry created a special Foundation for the primary purpose of providing continued educational opportunities throughout Ohio. The goal of the Foundation is to provide scholarships to qualified applicants. To date, hundreds of scholarships have been awarded to students representing all corners of the state.

These bright students are the future of our industry. Your donation allows these young men and women to achieve their energy career goals, and helps to build the next generation who will explore, develop and produce Ohio's energy resources.

Please consider a donation to the Foundation in your legacy planning, in memory of, or as a tax deductible year end charitable donation. The Foundation is a 501(C)(3) tax exempt charitable organization.
